

# Pace Junior Science College , Borivali

EVS Projects topic	Roll No						
1. Management of solid waste in our city	101	128	155	182	209	236	319
2. Forest Conservation	102	129	156	183	210	237	320
3. Mangrove conservation in Mumbai	103	130	157	184	211	238	321
4. Possible ways to reduce river pollution	104	131	158	185	212	239	322
5. Flood control/Pollution control measures on bank of river Mithi	105	132	159	186	213	240	323
6. Impact of air pollution on human health	106	133	160	187	214	241	324
7. Natural Disaster Management	107	134	161	188	215	242	325
8. Effect of overuse of water by people on ground water level	108	135	162	189	216	243	326
9. Benefit of organic agriculture over chemical intensive agriculture	109	136	163	190	217	244	327
10. Effect of biogas uses on house hold expense	110	137	164	191	218	301	328
11. Use of sewage water for irrigation	111	138	165	192	219	302	329
12. Conservation of energy resources or Renewable energy resources	112	139	166	193	220	303	330
13. Loss of Biodiversity	113	140	167	194	221	304	245
14. Cause of extinction of many species (Plants and animals)	114	141	168	195	222	305	
15. Green Movement and it's impact on global warming	115	142	169	196	223	306	
16. Use of public Transport for reducing purchase of fuel	116	143	170	197	224	307	
17. Rain water harvesting	117	144	171	198	225	308	
18. Ground water level	118	145	172	199	226	309	
19. New emerging disease	119	146	173	200	227	310	
20. Green – surrounding as on important part of human well - being	120	147	174	201	228	311	
21. The quality of water and soil affect the lost of farming	121	148	175	202	229	312	
22. Effect of soil pollution in farming	122	149	176	203	230	313	
23. Organic agriculture	123	150	177	204	231	314	
24. Forest conservation	124	151	178	205	232	315	
25. Possible ways to reduce river pollution	125	152	179	206	233	316	
26. Importance of solar and wind energy	126	153	180	207	234	317	
27. Danger and health impact of tobacco consumption	127	154	181	208	235	318
